

Dear Senator:

I am writing in **SUPPORT** of AB 1634, as amended, and I urge you to vote in its favor.

As an animal lover and as a taxpayer, I am appalled by the figures on pet overpopulation in California. With nearly 1 million pets abandoned each year, our shelters fill up with many more dogs and cats than there are homes. The result is overcrowded shelters and the worst kinds of animal suffering—including the deaths of over half a million animals each year, most of them healthy and adoptable. This costs the State of California over \$250 million dollars per year.

AB 1634 is an important step that will encourage people to spay or neuter their family pets, while providing animal control officers with new tools to promote responsible pet ownership.

Please help save money and lives... **vote "YES" on AB 1634.**

Sincerely,
