

Dear Senator:

I am writing in **SUPPORT** of AB 1634, the California Healthy Pets Act, and I urge you to vote in its favor.

As an animal lover and as a taxpayer, I am appalled by the figures on pet overpopulation in California. With nearly 1 million pets abandoned each year, our shelters fill up with many more dogs and cats than there are homes. The result is overcrowded shelters and the worst kinds of animal suffering—including the deaths of over half a million animals each year, most of them healthy and adoptable.

The California Healthy Pets Act is a proven solution that asks people to spay or neuter their family pets, while offering common sense exemptions, including guide dogs, law enforcement dogs, search and rescue dogs, service dogs, signal dogs, pets that are deemed too old or too ill, competition cats and dogs, herding dogs, and pets that are non-residents.

Please help save money and lives... **vote “YES” on AB 1634.**

Sincerely,
