

November 21, 2007

Dear Friend,

We have a crisis in the state of California--every 63 seconds a dog or cat is killed in a shelter in our state. Due to overbreeding, accidental pregnancies and neglect, nearly one million pets enter our city and county shelters annually, and over half of them are euthanized – a morally bankrupt “solution” that costs California taxpayers more than \$250 million every year. It is for this reason we have mounted a campaign to stop this tragedy and we hope you will join us in this fight.

We are supporting the California Healthy Pets Act (AB 1634), a common sense solution supported by responsible pet owners, taxpayers, law enforcement, humane associations, local government officials, animal control agencies, rescue groups and veterinarians. This bill promotes responsible pet ownership in California by requiring most dog and cat owners to spay or neuter their pet by the age of six months, with reasonable exemptions.

AB 1634 has passed the State Assembly and now we need your help to pass it in the California State Senate this January!

Securing the passage of the California Healthy Pets Act is the best thing we can do for the animals, shelter workers and taxpayers of California.

We are asking you for your support now. We need you to attend one of our next events, make a contribution, sign a support letter or contact your representative. For more information or to find out how you can help, please visit www.cahealthypets.com.

We hope you will join us. We need your help. Thank you!

Warmly,
